500C

Its official: the world's cutest car just got even cuter. We've taken everything that's great about the 500 – the glamour, the trimmings, the state-of-the-art technology – and added an electric soft top. So now driving will be even more fun. Take your pick from 2 trim levels, 3 roof colours and an array of options to build a 500C that fits with your lifestyle.

Panda

Slightly larger than the model it replaces, the new Panda boasts improved safety standards, more interior space and fresh interior and exterior designs inspired by the concept of the "Squircle" i.e. squared-off circular shapes.

Special attention has also been paid to the materials, solidity and overall finish of the new FIAT Panda, which is now build in FIAT's flagship Giambattista Vico factory near Naples in Italy, while the Panda's chassis benefits from improved noise and vibration isolation, reduced body roll and higher levels of grip.
